

2744 Annual Survey Status Final vs. Finalized

Final

When a facility finishes reviewing and making corrections to the **2744 Annual Survey**, they must select “Submit for Acceptance” to send it to the Network for review. At this point, it is in a “Final” stage of being reviewed by the Network.

“Final” **does not** mean you have completed the 2744. It has the option of being rejected by the Network.

Finalized

The Network has accepted your facility’s completed **2744 Annual Survey** and submitted it to CMS. No further action is required.
