What Have You Tried?

You are the most important member of your Treatment Team. We encourage you to take an active role in resolving your concern by taking the following:

- Carefully review the facility's Patient Rights and Responsibilities, and follow your facility's internal complaint/grievance procedure.

If you are not satisfied with your facility's procedure or do not wish to use it, you have the right to contact ESRD Network 18.

What You Can Expect from the Network?

It is the goal of the Network to reach a resolution so the patient can continue to receive care in a healthy treatment environment. This will often require a partnership involving active patient participation to ensure that all parties are included in the process, which increases our ability to reach a positive outcome.

- Patient Services Department will request and review documentation related to your grievance from your facility.
- Patient Services Department will collaborate with patient and staff to reach a resolution.
- Patient Services Department will provide the patient with the outcome of the investigation in writing.
- Network 18 will work with the State Department of Health Services Office when deemed necessary.

What Network 18 CAN and CANNOT Do

We CAN

- Investigate claims filed by patients, family members, or patient representatives in an effort to resolve any existing issues the patient is experiencing at the dialysis facility or transplant center.
- Provide individualized interventions and recommendations to both treatment teams and patients on how to rebuild a positive patient-provider relationship.
- Advocate for patient rights.
- Assist with locating a facility if necessary through Dialysis Facility Compare.
- Provide resources such as educational materials and contact information for kidney-related organizations.

We CANNOT

- Require a dialysis facility, transplant center, or physician to accept a patient.
- Change or become involved in facility or personnel policies and procedures
- Facilitate in the firing or transfer of a physician or staff member.
- Directly provide patients with monetary compensation, payment of bills, or transportation arrangements.
- Override State or Federal licensing/certification requirements.
- Assist in the pursuit of legal action.

If you file the grievance anonymously, and your concerns relate directly to your individual care, our ability to investigate your claims may be limited. Your anonymity is important to us and will be protected while your concerns are addressed to the best of our ability.
